

# CU @ LUNCH with Cooper Union Alumni

## Ran Oron, Arch '96

---

Ran Oron established ROART, an architecture firm in New York City, in 1996. The same year, he began teaching art and architecture at Pratt Institute, Brooklyn, NY, and had his first solo exhibition, entitled *Planes*. The exhibition was comprised of an installation of folding walls; these forms were derived from his experience manipulating paper maps to navigate as a helicopter pilot in the Israeli Air Force.

Mr. Oron has lectured at various schools and organizations around the world, including International Artists Against Racism, the Cooper Union (New York 1994), the Goethe Institute (Mexico City 2001), the AIA New York Chapter (New York 2005), University of Girona (Girona, Spain 2005).

Learn more about Mr. Oron's work at [www.roart.com](http://www.roart.com).
